Limited review report on the interim condensed separate financial statements

To: The Board of Directors of Citadel Capital Company S.A.E.

Introduction

We have reviewed the accompanying interim condensed separate financial position of Citadel Capital Company (S.A.E.) ('the Company') as of 30 June 2021 and the related interim condensed separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the six month period then ended. Management is responsible for the preparation and fair presentation of these interim condensed separate financial statements in accordance with Egyptian Accounting Standard 30 "Interim financial reporting". Our responsibility is to express a conclusion on these interim condensed separate financial statements based on our limited review.

Scope of limited review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements No. 2410, "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim condensed separate financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying interim condensed separate financial statements are not prepared in all material respects, in accordance with Egyptian Accounting Standard 30 "Interim financial reporting".

Emphasis of matter

Without qualifying our conclusion, and as described in note (8) to the interim condensed separate financial statements, the Company incurred a loss of EGP 195 million in the six month period ended 30 June 2021 and as of that date its current liabilities exceeded its current assets by EGP 3.9 billion and it had accumulated losses of EGP 4.7 billion. In addition, as of that date, the Company was in breach of its debt covenants and had defaulted in settling its loan instalments on the respective due dates. These events and conditions along with other matters disclosed in note (8) to the interim condensed separate financial statements, indicate the existence of material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The interim condensed separate financial statements do not include the adjustments that would be necessary if the Company is unable to continue as a going concern.

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

1. Introduction

Citadel Capital Company "S.A.E." was incorporated in 2004 as an Egyptian joint stock company under Law No. 159 of 1981. It was registered in the commercial register under number 11121, Cairo on 13 April 2004. The Company's term is 25 years as of the date it is entered in the commercial register. The company's head office is in 1089 Nile Corniche, Four Season Nile Plaza, Garden City Cairo, Egypt. The company is registered in the Egyptian Stock Exchange.

The purpose of the Company is represented in providing financial and financing consultancy for different companies and preparing and providing feasibility studies in the economical, engineering, technological, marketing, financial, administrative, borrowing contracts arrangements and financing studies for projects and providing the necessary technical support in different fields except legal consultancy, in addition to working as an agent of companies and projects in contracting and negotiations in different fields and steps especially negotiations in the management contracts, participation and technical support. Managing, executing and restructuring of projects.

The Extraordinary General Assembly of the Company decided on 20 October 2013 to approve the Company's conditions of work in accordance with the Capital Market Law and its Executive Regulations as a company engaged in the purpose of establishing companies and participating in increasing the capital of companies in accordance with the provisions of Article 27 of the Capital Market Law and 122 of its executive regulations. The necessary legal procedures have been initiated after completion of all necessary legal procedures to increase the company's capital until the situation is reconciled according to the new capital of the company.

The company's preferred shares are owned by Citadel Capital Partners Ltd. Company, the principle shareholder of the company by 23.49%.

These interim condensed separate financial statements has been authorised by the company's Board of Directors on 7 September 2021, and the Shareholders' General Assembly has the right to modify the interim condensed separate financial statements after being issued.

Users of these interim condensed separate financial statements should read them together with Company's interim condensed consolidated financial statements for 30 June 2021 in order to obtain full information on financial position, results of operations, cash flow and changes in equity of the Company as a whole.

Net carrying value	9,279	323	-	-	18,650	28,252

3(b) Maturities of financial liabilities

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due, due to shortage of funding. Company's exposure to liquidity risk results primarily from the lack of offset between assets of maturities of assets and liabilities.

The management makes cash flow projections on periodic basis, which are discussed during the Board of directors meeting, and takes the necessary actions to negotiate with suppliers, follow-up the collection process from related parties in order to ensure sufficient cash is maintained to discharge the Company's liabilities. The Company's management monitors liquidity requirements to ensure it has sufficient cash and cash equivalents to meet operational needs while maintaining sufficient cash cover to meet the cash outflows to settle the obligations of loans and borrowings to be able to maintain financial terms, guarantees and covenants at all times.

The Company limits liquidity risk by maintaining sufficient facilities and reserves, and by monitoring cash forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

**Notes to the interim condensed separate financial statements
For the six months ended 30 June 2021**

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

Non-financial assets and financial liabilities (continued)

The table below summarises the maturities of the Company's undiscounted financial liabilities at 30 June 2021 and 31 December 2020, based on contractual payment dates and current market interest rates.

	Below 6 month
30 June 2021	
Loans	5,463,732
Creditors and other credit balances	791,727
Due to related parties	1,120,166
Total	7,375,625
31 December 2020	
Loans	5,295,234
Creditors and other credit balances	799,530
Due to related parties	1,095,235
Total	7,189,999

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or pay the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, the most advantageous market for the asset or the liability.

The Company should be able to have access to the principal market or the most advantageous market. In the absence of principal market, the Company does not need to conduct a thorough search of all possible markets to determine the principal or the most advantageous market. However, the Company takes into consideration all information reasonably available.

The table below shows the financial assets and liabilities at fair value in the separate financial statements at 30 June 2021 within the hierarchy of the fair value, based on the input levels that are considered to be significant to the fair value measurement as a whole:

- Level 1 - Inputs of quoted prices (unadjusted) in active markets for identical assets or liabilities, which the Company can have access to at the date of measurement.
- Level 2- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3- Unobservable inputs of the asset or the liability.

**Notes to the interim condensed separate financial statements
For the six months ended 30 June 2021**

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

Non-financial assets and financial liabilities (continued)

Recurring fair value measurements

At 30 June 2021

Financial assets

Financial assets at FVOCI

Equity investments

Total financial assets

	Level 1	Level 2	Level 3	Total
Equity investments	-	6,906	-	6,906
Total financial assets	-	6,906	-	6,906

The table below shows the financial assets at fair value in the interim condensed separate financial statements at 31 December 2020 within the hierarchy of fair value.

Recurring fair value measurements

At 31 December 2020

Financial assets

Financial assets at FVOCI

Equity investments

Total financial assets

	Level 1	Level 2	Level 3	Total
Equity investments	-	6,906	-	6,906
Total financial assets	-	6,906	-	6,906

The Company determines the level, in the case of transfers between levels within the hierarchy of fair value through the revaluation of the classification (based on the lowest input levels that are considered to be significant to the fair value measurement as a whole). The Company did not make any transfers between levels 1 and 2 during the period.

4. Profit and loss information

4(a) Advisory Revenue

Advisory fee represents advisory services rendered to the subsidiaries and other related parties by virtue of shareholders agreements:

	Six months ended 30 June		Three months ended 30 June

Other	15	33	10	5
	136,409	127,873	68,609	66,121

4(d) Income tax

Income tax expense is recognised based on management's estimate of the weighted average effective annual income tax rate expected for the full financial year. The average annual tax rate used for the period to 30 June 2021 is 0.23% compared to (0.02%) for the six months ended 30 June 2020. There is no material change in the effective tax rate for the period as compared to prior period.

**Notes to the interim condensed separate financial statements
For the six months ended 30 June 2021**

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

5. Significant changes in the current reporting period

The existence of novel coronavirus (COVID-19) was confirmed in early 2020 and has spread across the whole world, causing disruptions to businesses and global economic activity in general. The extent and duration of such impacts remain uncertain and dependent on future developments that cannot be accurately predicted at this time, such as the transmission rate of the coronavirus and the extent and effectiveness of containment actions. The restrictions resulting from the COVID-19 pandemic are impacting the local and the entire global economy. However, the Company are delivering growth and proving resilient in the face of COVID-19 supported by the diversification strategy of its portfolio.

The situation differs greatly from region to region. Whereas some countries are keeping their borders closed, restricting the flow of goods and imposing lockdowns, others are already starting to lift restrictions in areas with low rates of new infections. The global market conditions have affected market confidence and consumer spending patterns locally and globally. Though management expectations for the Company's sector post COVID-19 remains positive given its strategic importance.

The Company has reviewed its exposure to COVID-19 related and other emerging business risks and believe that upon the resolution of the COVID-19 pandemic the Company will accelerate growth trends across the portfolio and that due to the diversity of the Company's portfolio

Management is closely monitoring the COVID-19 situation and is in constant communication with leadership teams across its subsidiaries to identify risks posed by the pandemic and develop appropriate measures to ensure the health and safety of its employees and business continuity.

The Company has reviewed and assessed the COVID-19 impact on the financial performance and position and its impact on assets through the impairment test performed and the management concluded that there is no material impact on the net book value of the Company assets.

**Notes to the interim condensed separate financial statements
For the six months ended 30 June 2021**

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

Related party transactions (continued)

6 (d) Terms and conditions

Transactions relating to Advisory fees during the period based on the Contracts in force and terms that would be available to third parties. All other transactions were made on normal commercial terms and conditions and at market rates.

The loans to related parties are repayable between 1 to 10 years from the reporting date. The average interest rate on the loans to related parties during the period was 11.5% (31 December 2020 – 11.5%).

6(e) Impairment of loans to related parties and due from related parties

Impairment of loans to related parties and due from related parties is estimated by monitoring ageing of balances. The Company's management examines the credit position and ability of related parties to make payments for their past due debts. Impairment is recognised for amounts due from related parties whose credit position, as believed by the management, does not allow them to pay their dues. The amount of the loss is measured as the difference between the carrying amount of the asset and the present value of future cash flows discounted at the original effective interest rate of the financial asset, and the carrying amount is reduced directly to the related parties balance by making a provision for impairment of related parties' balance.

7. Basis of preparation of the interim condensed separate financial statements

Compliance with EAS

The interim condensed separate financial statements for the financial period ended 30 June 2021 have been prepared in accordance with the requirements of the Egyptian Accounting Standard (30) "Interim Financial Statements".

These interim condensed separate financial statements doesn't contain all the information required in preparing the full annual financial statements and should be read in conjunction with the Company's annual separate financial statements as at 31 December 2020.

**Notes to the interim condensed separate financial statements
For the six months ended 30 June 2021**

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

8. Going concern

The Company has made a net loss of approximately EGP 195 million for the period ended 30 June 2021 (30 June 2020: EGP 260 million loss). This has further increased the Company's accumulated losses amounted to approximately EGP 4.7 billion as at 30 June 2021 (31 December 2020: EGP 4.5 billion).

As at 30 June 2021, the Company is financed by borrowings and bank facilities to the amount of EGP 5.5 billion. The Company had EGP 12.7 million of cash and cash equivalents.

During the financial period, the Company was in breach of its existing debt covenants. As a result of the breaches and defaults, an amount of EGP 5.5 billion was repayable on demand and the loans have been classified as current liabilities as at 30 June 2021. As a result, the Company's current liabilities exceeded its current assets by EGP 3.9 billion (31 December 2020: EGP 3.7 billion).

Furthermore, due to the adverse impact globally from Covid-19, the Company's business activities were in certain parts of the business significantly impacted.

These circumstances indicate significant doubts as to whether the Company will be able to meet its debt obligations as they fall due and represent a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern

The key factors which could lead to the Company not being a going concern are considered to be:

- If the Company continues to make losses from operations and does not generate sufficient cash flows from the operations. As a result, the Company would not be able to provide services to its customers, pay employees and suppliers.
- If the Company is unable to remedy any breaches of financial covenants financial nor able to renegotiate or restructure any defaulted positions.

Assessment of cash flow forecasts produced by management

The assessment of the going concern basis for the preparation of the financial statements of the Company relies heavily on the ability to forecast future cash flows over the going concern assessment period and to successfully restructure the defaulted debt and remedy any breaches. Although the Company has a robust budgeting and forecasting process, there is an inherent uncertainty in the assumptions used in this process. This is further exacerbated by the current economic uncertainty caused by the Covid-19 pandemic and other factors.

Management has prepared a comprehensive cash flow forecast for the next 5 years of the business which has been subject to Board review and challenge. These cash flows are consistently used for purposes of testing the non-current assets for impairment and details of the assessments and key assumptions, During the period, no impairment losses were recognized against noncurrent assets.

**Notes to the interim condensed separate financial statements
For the six months ended 30 June 2021**

(All amounts in the notes are shown in Thousand Egyptian Pounds unless otherwise stated)

Going concern (continued)

Key areas in determining the Company is a going concern

The key considerations in respect in respect of assessing going concern and in reaching the conclusion are set out below:

Operational Activity

- The company show continuous operational and EBITDA growth year on year.
- Management continuous to maintain a more relaxed cash flow impact from operating expenses either through deferring payments or cost cutting policies.

Liquidity Position

The Company has experienced significant liquidity issues and in order to address the liquidity issues, management has undertaken the following actions:

- Loans from local financial institutions, with a balance of 5.5 billion outstanding as at 30 June 2021, are in the process of being renegotiated. The Company has negotiated to settle all the overdue debts through finance from one lender. On reaching the rescheduling agreement, the Company will benefit from the longer settlement period and the waiver of the charges on the defaulted loans.

Other initiatives

- Management continuous to maintain a more relaxed cash flow impact from operating expenses either through deferring payments or cost cutting policies.

Based on the above factors, management is of the view that the Company remains a going concern, and the interim condensed separate financial statements of the Company have been prepared on a going concern basis. Therefore, to continue realizing its assets and discharging its liabilities in the normal course of business.
