Limited review report on condensed separate interim financial statements

To: The Board of Directors' of Maridive & Oil Services Company

Introduction

We have reviewed the accompanying condensed separate interim statement of financial position of Maridive & Oil Services Company. "an Egyptian Joint Stock Company – Free Zone Company" as at June 30, 2023, the condensed separate interim statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes to the condensed separate interim financial statements'. Management is responsible for the preparation and presentation of these condensed separate interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these condensed separate interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with Egyptian Standard on Review Engagements (2410), Review of Interim Financial Information Performed by the Independent Auditor of the Entity except for the paragraphs mentioned at the basis for qualified conclusion. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

- A. As stated in Note No. (14) of the notes to the condensed separate interim financial statements, the company has not committed to paying the bank installments due to HSBC for the existing loans at June 30, 2023, according to the schedule agreed upon in the contracts of these loans with the bank in addition to the company's failure to fulfill the financial commitments for those loans until June 30, 2023.
- B. As stated in Note No. (18) of the notes to the condensed separate interim financial statements, there is a debit balance due from related party "Ocean Marine Company" (a subsidiary company) amounted to USD 37 061 593 at June 30, 2023. The company has doubt to collect this balance in light of the financial statements of the subsidiary company. The company did not provide us with an impairment study of this debit balance to assess the potential impact on the company's condensed separate interim financial statements.
- C. The company did not comply with the requirements of Egyptian Accounting Standard No. (47) "Financial Instruments" which should be applied for the financial periods beginning on or after January 1, 2021. We were not able to perform any alternative procedures to verify the potential financial impact on the separate financial statements as a result of non-compliance with that standard.

Hazem Hassan

Qualified Conclusion

Based on our review, except for the effect of the matters described in the basis for Qualified Conclusion paragraphs, nothing has come to our attention that causes us to believe that the accompanying condensed separate interim financial statements do not present fairly, in all material aspects, the financial position of the entity as at June 30, 2023, and its financial performance and its cash flows for the six months then ended in accordance with Egyptian Accounting Standards.

Maridive and Oil Services Company
An Egyptian Joint Stock Company – Free Zone Company
Notes to the condensed separate interim financial statements for the period ended 30 June, 2023
(All amounts are in US dollar unless otherwise stated)

1. Reporting entity

Maridive and Oil Services S.A.E. Company – an Egyptian Joint Stock Company – was established under the framework of the provisions of the Arab and Foreign Investment and Free Zones Law No. 43 of 1974 which was replaced by the Investment Law No. 230 of 1989 and subsequently replaced by the Investment Guarantees and Incentives Law No. 8 of 1997. And replaced by law No. 72 of 2017 The Ministerial Decree of the incorporation of the Company and its articles of incorporation were published in the Egyptian Gazette Issue No. 29 dated March 19, 1978.

The Company is registered in commercial registry under No. 19564 on 19 March 1978.

The license for the company's operation has been extended for five periods starting 20 July 2017 according to the decision no.27/ 2017 granted from the general authority for investment and free zone dated 21 August 2017.

Address of the Company is Plot 13-line F, General Free Zone, Port Said – Arab Republic of Egypt.

In 1993, the Company established a branch in Abu Dhabi in the United Arab Emirates; which was registered under No. 25391 dated June 26, 1993.

2. The Company's purpose

- A) The purpose of Maridive and Oil Services S.A.E. is to provide in the free zone of the Arab Republic of Egypt all marine services, including the supply of services, maintenance, construction, establishment, and rescue operations whether under or above the level of the sea.
- B) All works related to manufacturing services for marine and land establishments including cleaning, maintenance, construction, transportation, supplies and all related equipment and spare parts required for those services.
- C) Owning and renting launches, marine loaders, supplying ships and all marine equipment.
- D) The company may benefit or participate by any kind with individuals and companies which have the same similar work, or which may cooperate in reaching objectives. Also, the company may merge with previously mentioned companies or acquire them. In addition, the company has the right to establish specialized companies in relation to its various activities. All the above decisions must be approved by the investment and zone general authority.

3. Basis of preparation

3.1 Statement of compliance

The separate financial statements for the period ended June 30, 2023 have been prepared in accordance with Egyptian Accounting Standards (EAS), and in the light of the prevailing Egyptian laws.

The financial statements were authorized for issue by the Board of Directors on August 13, 2023.

3.2 Important accounting policies

The condensed separate interim financial statements have been prepared following the same accounting policies that were applied and followed when preparing the company's financial statements for the financial year ended 31 December 2022, and these policies have been consistently followed for all periods presented in these condensed separate interim financial statements.

3.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following material item in the balance sheet:

Non-derivative financial instruments at fair value through profit or loss are measured at fair value.

Maridive and Oil Services Company
An Egyptian Joint Stock Company – Free Zone Company
Notes to the condensed separate interim financial statements for the period ended 30 June, 2023
(All amounts are in US dollar unless otherwise stated)

3.3.1 Use of estimates and judgments

The preparation of the financial statements in conformity with Egyptian Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

3.4 Measurement of fair values

The fair value of financial instruments is determined on the basis of the market value of the financial instrument or similar financial instruments at the date of the condensed independent interim financial statements without deducting any estimated future selling costs. The values of financial assets are determined at the current purchase prices of those assets, while the value of financial liabilities is determined at the current prices at which those liabilities can be settled.

In the absence of an active market to determine the fair value of financial instruments, the fair value is estimated using various evaluation methods, taking into account the prices of recent transactions, and being guided by the current fair value of other instruments that are substantially similar - the discounted cash flow method - or any other evaluation method. It results in reliable values.

When using the discounted cash flow method as an evaluation method, future cash flows are estimated based on management's best estimates. The discount rate used is determined in light of the prevailing market price on the date of the condensed independent interim financial statements for financial instruments that are similar in terms of their nature and conditions.

22. Financial instruments

Financial risk management

Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The audit committee is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's audit committee oversees how management monitors compliance with the Company's risk management policies, procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company's audit committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the company's customers, debtors and other debit balances.

The carrying amount of financial assets represents credit exposure. The exposure to credit risk at the end of the reporting period was as follows:

	Note	30 June 2023	31 December 2022
Trade receivables	10	20 614 427	13 712 048
Debtors and other debit balances	11	4 163 803	3 858 958
Due from subsidiaries	18-1	41 024 437	35 394 762
Cash at bank	12	1 733 673	1 366 839
		67 536 340	54 332 607

Trade and other receivables

Creditworthiness for Trade and other receivables based on a credit policy set by the Board of Directors Committee.

The company monitoring the credit risk of the customers by collecting debtors and other debit balance according to their classifications, credit position and the guarantees provided by him. And customer balances are more than 60 days, most of which represent the balances of government agencies.

Maridive and Oil Services

An Egyptian Joint Stock Company – Free Zone Company

Notes to the condensed separate interim financial statements for the period ended 30 June 2023 (Continued)

(All amounts are in US dollar unless otherwise stated)

Cash and cash equivalents

The Company held cash and cash equivalents of USD 1 733 673 at June 30, 2023 (December 31, 2022: USD 1 366 839), which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties.

Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

The Company uses activity-based costing to cost its products and services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments. The Company aims to maintain the level of its cash and cash equivalents and at an amount in excess of expected cash outflows on financial liabilities Except creditors for the period of time 60 days.

The Company also monitors the level of expected cash inflows on debtors and other debit balances together with expected cash outflows on creditors and others credit balances, at June 30, 2023.

The maturity dates of financial obligations according to the expected repayment schedules are as follows:

	Book value	12 months or less	1-2 years	2-5 years

Maridive and Oil Services

An Egyptian Joint Stock Company – Free Zone Company

Notes to the condensed separate interim financial statements for the period ended 30 June 2023 (Continued)

(All amounts are in US dollar unless otherwise stated)

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return. The company incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set by B.O.D committee.

Interest rate risk

Interest rate risk is represented in fluctuation of interest rates on the facilities granted to the company by the banks. This risk is covered through getting the best available interest rate in the market on the credit facilities as well as determining fixed interest rate on the loans.

Capital management

The Board's policy is to maintain a strong capital base to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital, which the company defines as net operating income divided by total shareholders' equity. The Board of Directors also monitors the level of dividends to shareholders. There were no changes in the company's approach to capital management during the period.

Currency risk

The company is exposed to currency risk on sales and financial assets that are denominated in a foreign currency. The currency in which these transactions are primarily denominated is the EGP and Euro.

In respect of monetary assets and liabilities denominated in other foreign currencies, the company ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.
